PREFACE

I feel immense pleasure to publish Annual Report of SURAJE for the Year 2018-19. This report reflects the activities of the organization during the Year. No doubt activities are performed by workers of SURAJE but we cannot forget active participation of Volunteers and different stakeholders at different level. Actual evaluators of our works are those persons for whom we do. The analysis of Impacts is regularly done and we found that we were in right direction of our vision mission and concept. SURAJE has gained many milestones and glimpses during the implementation of programmes.

Now, the Nation seems to be going towards change. Several initiatives has been taken by the Nation like Net Banking, Financial inclusion, Bankability, Skilling the Youth etc. When new initiatives are taken, more risk also arise. To tackle the risk we need to be more watchful and regular monitor the impact. We were watchful and done all what the Government needed like NITI AAYOG, FC RA,PFMS etc.

We think that change can be done only by changing Children. Children are the Nation and if a person wants to develop He/ She must have to bear childhood in his/her own. Such is same with the Nation. Only Childhood can change the Nation. So, if we want to change the Nation, we must strengthen and flourish childhood. It can be done by the care and Protection of the Rights of Children by providing care, protection and better facilities beginning from pre conceiving stages.

We would like to express heartiest gratitude to all General Body Members and Executive Body Members for their supports, valuable inputs and monitoring to grow in right to achieve goals and objectives of the Organization. We also extend our thanks to all staff who have contributed and have put in best efforts in the SURAJE for achieving goals and objectives.

We hope that SURAJE adopted strategies and implemented with full dedication to be successful. We extend our thanks to all stakeholders and good wishers and supporters and appeal to evaluate , suggest and support, to make the Nation well educated, healthy, prosperous, self reliant, self governed and peaceful.
